About This Game

Lake Ridden is a story-driven, first-person puzzle game! A cozy supernatural adventure where you unravel a mysterious past, trying to find your sister. Luckily, you are not alone...

You are Marie, a 13-year-old girl and the year is 1988. The warm summer is giving way to the first signs of autumn.

Reluctantly, you join your younger sister and her friends for one last camping weekend in the wilderness of Maine. It was going just great, but the second night by the sizzling campfire, an argument with your sister ended with her running off into the forest. While searching for her, you stumble upon an old forgotten estate.

To solve the mystery, and ultimately find your sister, you must investigate for clues, solve tricky puzzles and communicate with former residents!

Yargis is a fun paced action pace Space Melee which allows for hours of great game play. Once you begin play there are countless ways which you can take an adventure and no two times that you log on will be the same. I recommend this game if you like classic space shoot em up games where you start out with the basics and over time build up a mighty vessel.

. There's a very charming game of discovery and exploration in here - I think - I've hit a few snags but I'm slowly figuring-out what's going on.

In my first run I met a triangle who wanted to be my friend - some higsaw pieces who I reunited and some octopus-looking-things which glowed for - well - I've no idea but I intend to find out!

My only grumble is that dying = losing money which would be OK if that wasn't money 'lost forever' from that 'universe' - meaning your progress in that 'universe' was just stunted a bit. Every reload is a 'new universe' too - which solves the money thing but then breaks the exploration thing and

I'm still enjoying it ;0. well it's not finished but when it is it will be a masterpiece... look. if you want to finish the story dont get it yet.. Interesting game. Allows to remember old times! Read training and you will understand. It is strange what nobody has made earlier.. Totally work the \$4 on sale to throw the Ford Escort around Nordeschliefe. Put in 100 litres and leave the rest stock. Giggled like a school girl. Just need Sabine now.

Have no idea what the other cars are doing. Don't care.. Oh, well, how should I begin ? I don't know how to write an evaluation about anything.

I had, and I still have, lots of fun playing this game. You are a very little dragon rider in the middle of the gigantic sky, fighting large, numerous enemies by the single power of your will to reach your goal. Clean the skies from evil creatures, and enjoy many possibilities to customize your gameplay !

I've tried many ways to play Diadra Empty, from the very offensive build to the protective, close-combat one. All of them has his pros and cons, but if a weapon is overpowered, others are offering a challenge to the player. I love this way of playing games.

The soundtrack is beautiful, though some songs are not fitting very well to the game's ambiance.

For its price, if you like shoot'em'up games where you feel very tiny yet able to do something, this game might please you greatly.. Really enjoying this game! I only wish there were cloud saves.. Great addition to a great simulator. KUNOS needs the F1 license.. This game taught me valuable lessons on friendship and homicidal clowns. Didn't get laid tho.

But honestly: This game is a little awkward and partially cringy, but in an entertaining way. I wouldn't recommend buying it without discount though.. Horrible game for the high price! I only got it because it was 0.79 cents on sale and I was like why not. Its really not that fun and really boring. Don't get this because it IS NOT fun.

It's not bad for a time management game.

But the formula is over repeated and it brings nothing new to the table.

Can be fun for a bit, though.. Game felt kind of annoying to play. Awful on kb+m and just as bad on controller. Graphics are decent at least.. Much cool so wow great fun

XD. I was screwing around on the store until I came upon this gem it was not out yet but boi am I happy the wait is over. This game is something that kinda gives you that binding of Isaac feeling to it how it is creepy and disturbing in some ways but unlike the binding of Isaac you can't just start and expect it to be simple and easy to beat for this games boss's you must plan to beat them and that is something you don't see in alot of games. in this game the bosses are not just the same with some other skin and other attacks added to it each boss has its own pattern and if you don't learn that pattern,have a fun time beating this game. Anyway I think this game was worth the wait and my money I rate it a 9\10. The kind of Gods you'll gladly sin for. :^). Why would even bother to make such a boring game?
